

BIOTEC L.E.D. BLEMISH CONTROL FACIAL

A deep cleansing facial featuring light therapy to visibly clear and rebalance oily blemish prone skin

THE UNIQUE FUSION OF ACTIVES, TOUCH & TECHNOLOGY

Join the revolution in skincare: effective, results driven treatments that herald a turning point in beauty therapy.

For the first time, Elemis has combined high-potency actives and its unique hands-on therapy with the science of bio-electric technology to deliver a new generation of facials.

THE FACIAL

Detox congested skin with this purifying facial, which helps to reduce breakouts and clear pores. Following a bespoke consultation with a trained Elemis therapist, skin is deeply cleansed and toned, preparing it for three unique Elemis treatment technologies. **Ultrasonic peeling** is followed by steam and extraction to decongest and rebalance an oily, congested skin. A clarifying **Anti-Blemish Activator** containing anti-bacterial salicylic acid, hydrating hyaluronic acid and anti-inflammatory iris extract then provides powerful anti-oxidant protection and helps soothe skin irritation.

At the heart of every BIOTEC facial is Elemis' **Skin Lift TOUCH** therapy. This unique hands-on therapy combines a series of unique massage techniques, exclusive to Elemis facials, which softens and prepares the skin, enabling it to receive each technology more effectively. In addition a soothing scalp massage helps restore and rebalance energy levels, reducing stress, while blue **L.E.D. light therapy** technology emits energy deep into the skin's layers, creating a powerful anti-bacterial action to minimise spot forming bacteria on the skin. Skin is soothed and calmed, while redness and irritation are reduced thanks to the anti-inflammatory properties of this exclusive technology.

Hydra-Active Gel Soothing Masks for the face and eyes further enhance the treatment's unique ingredients, helping to moisturise and calm the skin, before **galvanic current** propels the bio-active formulas deeper into the skin.

The treatment is completed with the application of **S.O.S Emergency Cream**, which soothes and protects, helping to prevent future breakouts and congestion.

TREATMENT BENEFITS

- ✓ Deep cleanses and detoxifies the skin
- ✓ Repairs damaged tissue and heals scarring
- ✓ Reduces inflammation
- ✓ Rebalances oil production
- ✓ Restores vital moisture levels

TARGETING

- ✓ Oily skin
- ✓ Blemishes
- ✓ Redness

NOELLA GABRIEL, DIRECTOR OF PRODUCT & TREATMENT DEVELOPMENT, SAYS:

"Oily, blemish prone skin is also sensitive skin and so needs extra care to prevent damage and further congestion. The new BIOTEC L.E.D. Blemish Control Facial is a powerful, effective clarifying treatment that is also gentle on the skin. It combines our very best technological experience with unique hands-on therapy to create the ultimate spot fighting treatment."
