

BIOTEC MICRO FIRM-A-LIFT FACIAL

A super-lifting facial to help firm and tighten cheeks, neck and jawline

THE UNIQUE FUSION OF ACTIVES, TOUCH & TECHNOLOGY

Join the revolution in skincare: effective, results driven treatments that herald a turning point in beauty therapy.

For the first time, Elemis has combined high-potency actives and its unique hands-on therapy with the science of bio-electric technology to deliver a new generation of facials.

THE FACIAL

Lift and tone sagging skin with this highly effective firming facial, which plumps and smoothes to leave skin looking tighter and more youthful. Following a bespoke Elemis consultation, skin is gently cleansed, exfoliated and toned to prepare it for the skin lifting properties of the **Lift Effect Activator**, rich in revolutionary plant stem cells, lupin and alaria esculenta seaweed.

At the heart of every BIOTEC facial is Elemis' **Skin Lift TOUCH** therapy. This unique hands-on therapy combines a series of unique massage techniques, exclusive to Elemis facials, which softens and prepares the skin, enabling it to receive each technology more effectively.

A luxurious re-energising **Amber Massage Balm** is then applied to stimulate specific skin responses for maximum results. **Microcurrent lifting** technology pulses with arjuna extract and amber to dramatically help lift and firm the sagging jowl area, while **galvanic current** propels the bio-active formulas deeper into the skin. **Hydra-Active Gel Soothing Masks** for the face and eyes further enhance the treatment's unique ingredients, helping to moisturise and calm the skin, whilst **Pro-Collagen Lifting Treatment Neck & Bust**, helps to lift and tone the décolletage area.
