

BIOTEC TRIPLE-TEC ANTI-WRINKLE FACIAL

The ultimate wrinkle-smoothing facial to rejuvenate ageing skin

THE UNIQUE FUSION OF ACTIVES, TOUCH & TECHNOLOGY

Join the revolution in skincare: effective, results driven treatments that herald a turning point in beauty therapy.

For the first time, Elemis has combined high-potency actives and its unique hands-on therapy with the science of bio-electric technology to deliver a new generation of facials.

THE FACIAL

Smooth away fine lines and wrinkles and reawaken tired, dull skin with the anti-ageing benefits of this rejuvenating facial. Following a bespoke Elemis consultation, skin is gently cleansed, exfoliated and toned to prepare it for the skin-renewing properties of the **Lines & Wrinkles Activator**, an intense complex of tripeptides, African birch bark, padina pavonica and omega 3 and 6. **Hydra-Active Gel Soothing Masks** for the face and eyes further enhance the activator's unique ingredients, helping to moisturise and calm the skin, while a luxurious re-energising **Amber Massage Balm** stimulates specific skin responses for maximum results.

The trio of treatment technologies begins with a low intensity **microcurrent**, which stimulates and strengthens muscle memory to lift and firm up skin. **L.E.D. light therapy** and **oxygen infusion** technologies then help plump up and smooth away visible fine lines and wrinkles, leaving skin looking refreshed, radiant and healthy.

At the heart of every BIOTEC facial is Elemis' unique **Skin Lift TOUCH** therapy. This unique hands-on therapy combines a series of unique massage techniques, exclusive to Elemis facials, which softens and prepares the skin, enabling it to receive each technology more effectively.

TREATMENT BENEFITS

- ✓ Dramatically smoothes the appearance of fine lines and wrinkles
- ✓ Significantly increases skin hydration and moisture levels
- ✓ Delivers a progressive lifting effect
- ✓ Promotes healthy cell renewal
- ✓ Protects against urban and environmental skin damage, preventing ageing

TARGETING

- ✓ Fine lines
- ✓ Depth of wrinkles
- ✓ Dull skin tone

EXTRAORDINARY RESULTS

In Independent Clinical Trials, the NEW Triple-Tec Anti-Wrinkle Facial delivered impressive results:

NOELLA GABRIEL, DIRECTOR OF PRODUCT & TREATMENT DEVELOPMENT, SAYS:

"I've spent two years developing BIOTEC with experts across the world. The new BIOTEC Triple-Tec Anti-Wrinkle Facial is a rejuvenating treatment that combines scientific expertise and a new technological experience with the very best of our hands-on therapy to deliver truly unique and effective anti-ageing results."
